

**For Parasailing and Powered Parachute rides only**  
**\* LIABILITY WAIVER \***

This liability waiver is a LEGAL DOCUMENT even though parts of this document may be written in a joking or sarcastic tone. We don't mean to scare you from enjoying the rental or ride, but too many people are looking to get paid from lawsuits. This liability waiver is a "catch all". It is not written to address a specific rental, ride, or risk as we offer boat and Jet Ski rental, parasail rides, hot air balloon rides, and powered parachute rides. We are several individuals working, and I use that term loosely, together to offer each other activities for everybody's benefit. You may be asked to sign a second, more specific waiver from the operator at time of rental/ride.

By signing this waiver you acknowledge that this is a "bullet proof" waiver. You will not seek civil penalties or compensation in any court in the event of injury or death against Flying and Floating Toys, James Doolin, or any people or companies working with or associated with the aforementioned. Your people (family, heirs, lawyers, representatives) will not seek civil penalties or compensation against the aforementioned.

You understand and accept the risks involved and that no amount of money or team of lawyers can dissolve or undo this liability waiver.

No liability or commercial insurance is provided. Make sure your life insurance policy is in order.

All safety issues and questions have been addressed and life vests provided for all boat rentals.

You agree that you are not mentally or physically impaired and that you are not under the influence of any alcohol, drug, or doctor's prescription when operating a boat or flying as a passenger.

All minors must have parent/guardian signature.

Print Name \_\_\_\_\_
